

VEO

Just **essential**

The new Fermax monitor is even simpler and more functional. A synthesis that takes design and performance to their most essential expressions, in a monitor specially designed for those users who decide to take the leap into video.

A new member in the home for those seeking comfort and ease when communicating.

FERMAX

VEO IN THE HOME

The VEO monitor is made of high-impact ABS plastic. Texturised finish for easy cleaning and ultraviolet protection to get more resistance to the light.

VEO incorporates a 4,3" colour TFT screen. Its unique handset design incorporating a magnet enables the user to put it back into position correctly when the call is finished.

Its balanced design of pure lines is distinguishing, modern and minimal. VEO integrates in the ambience of any contemporary interior design.

VDS technology.

PERFORMANCE

When a call is received, the image appears automatically. When the handset is picked up a conversation with the visitor can take place. The image is de-activated automatically after 90 seconds, or when the handset is put back in position.

To open the door, press the button .

Incorporates as standard: door opener button and call to guard, autostart of the main camera, F1-F2 buttons to activate two additional functions as well as brightness, contrast and colour adjustment.
