

smile :))

The colour of your Smile

Smile is the new video entry experience.

It is cool and elegant. With a design that allows its perfect integration in any surrounding.

An advanced management monitor, with hands-free communication, high performance features and user-friendly.

And now it is designed in different colours to create unique spaces.

ABSOLUTE WHITE, BLACK and SILVER.

It is a new generation. It is SMILE.

FERMAX

Hands-free SMILE monitor with a 7" TFT screen which allows two types of installation, **surface** or **flush mounted**.

It is distinguished for its ultra-resistant transparent polycarbonate sheet with ultraviolet protection, its digital audio quality, capacitive keypad and its OSD menu.

Its **OSD menu** allows to browse through the screen by means of intuitive interpretation of the graphic icons, achieving the maximum performance from the monitor features.

Smile includes an **additional keypad** that remains invisible until it is activated. Each user may turn these 4 additional capacitive buttons into direct accesses to the desired favorite functions.

Smile includes **Braille in its pushbuttons** and **on screen information** about the communication status to facilitate the access to people with any kind of disability.

For those who pursuit minimalism, we offer as well the SMILE monitor with a 3,5" TFT screen with white profile and monochrome pushbuttons.

FEATURES

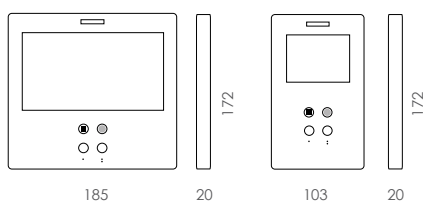

- Colour TFT screen, available in 7".
-  Activates/deactivates communication with the outdoor panel.
-  Door opening.
-  Allows to access the MENU by pressing during 5 seconds. Activation of the invisible keypad which gives access to additional functions with a quick 1 second press.
-  Panel camera auto switch-on.
