HONEYWELL SECURITY UK LIMITED SOFTWARE LICENSE AGREEMENT

You should carefully read the following terms and conditions. If you do not consent to be bound by this License Agreement, you must promptly return the unused package to the person from whom you purchased it within fifteen (15) days from date of purchase and your money will be refunded to you by that person. If the person from whom you purchased this Software fails to refund your money, contact Honeywell Security UK Limited immediately at the address shown below.

Important: This Software is security related. Access should be limited to authorized individuals.

1. GRANT OF LICENSE. Subject to all terms and conditions hereof Honeywell Security UK Limited ("Honeywell Security") does hereby grant to the purchaser (the "Licensee") upon payment in full of the published license fee, or other license fee agreed to in writing (the "License Fee") a nontransferable, non exclusive license to use the enclosed software ("Licensed Programs") provided herewith in Licensee's own business on a single computer for a term commencing on the date of payment in full of the License Fee and continuing in perpetuity unless terminated in accordance with the terms hereof.

2. PROPRIETARY RIGHTS. Licensee hereby acknowledges that the Licensed Programs

1. accept the terms of the license agreement

I do not accept the terms of the license agreement

GalaxyRS - InstallShield Wizard

Microsoft SQL Server
Microsoft SQL Server

Honeywell

R056
Full Access
non-dongled

Microsoft SQL Server
Microsoft SQL Server MSDE

I found SQL server is installed on this computer.
Microsoft SQL Server: 11.0.2100.60
SQL server name: .\GALAXYRS2
SQL instance name: GALAXYRS2

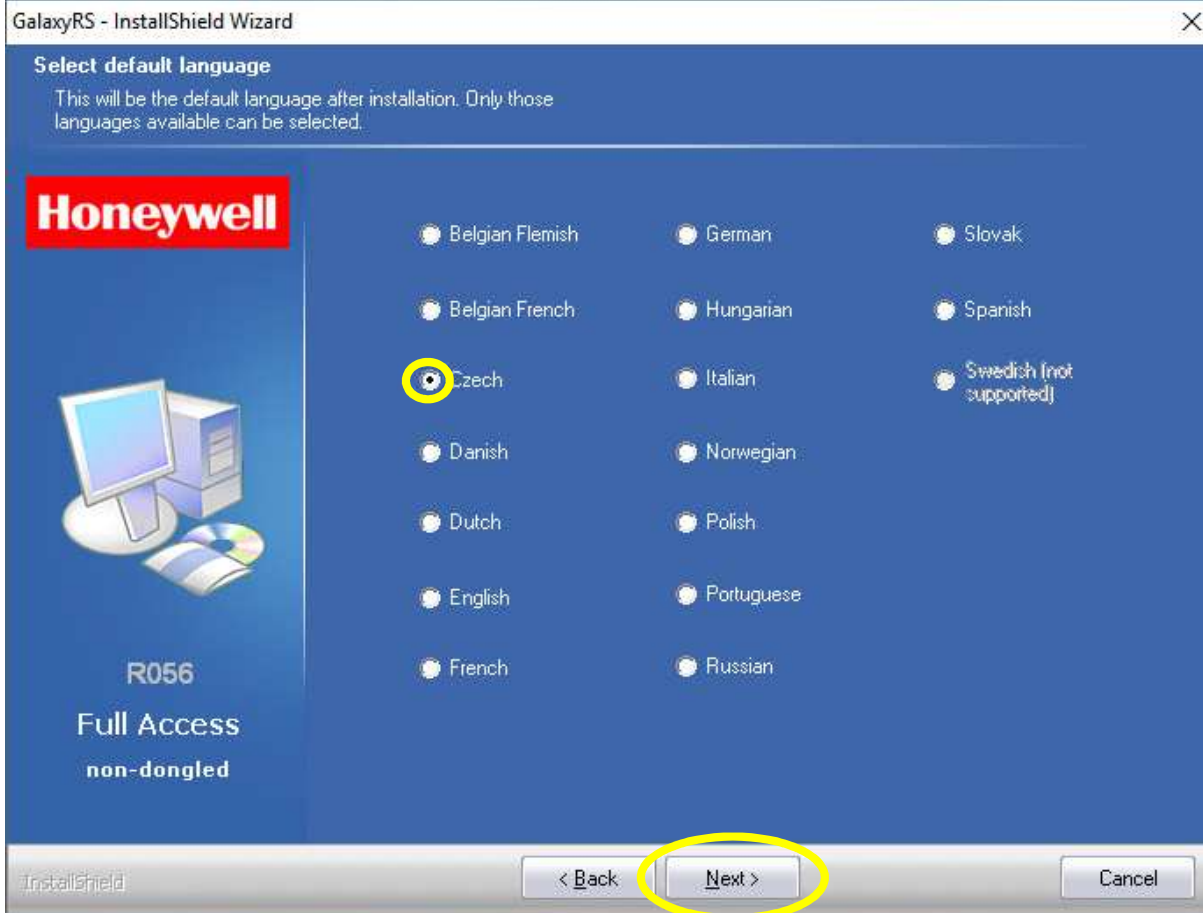

Pokud je instalován SQL Server, program jej nalezne a použije. V popsaném příkladu je v počítači instalován SQL Server 2012 Express Edition. Není-li SQL Server již instalován, program jej nainstaluje.

Je-li SQL Server již instalován a není použitelný (heslo,..) lze zaškrtnout volbu „Install new Server instance“ – bude instalován další SQL Server.

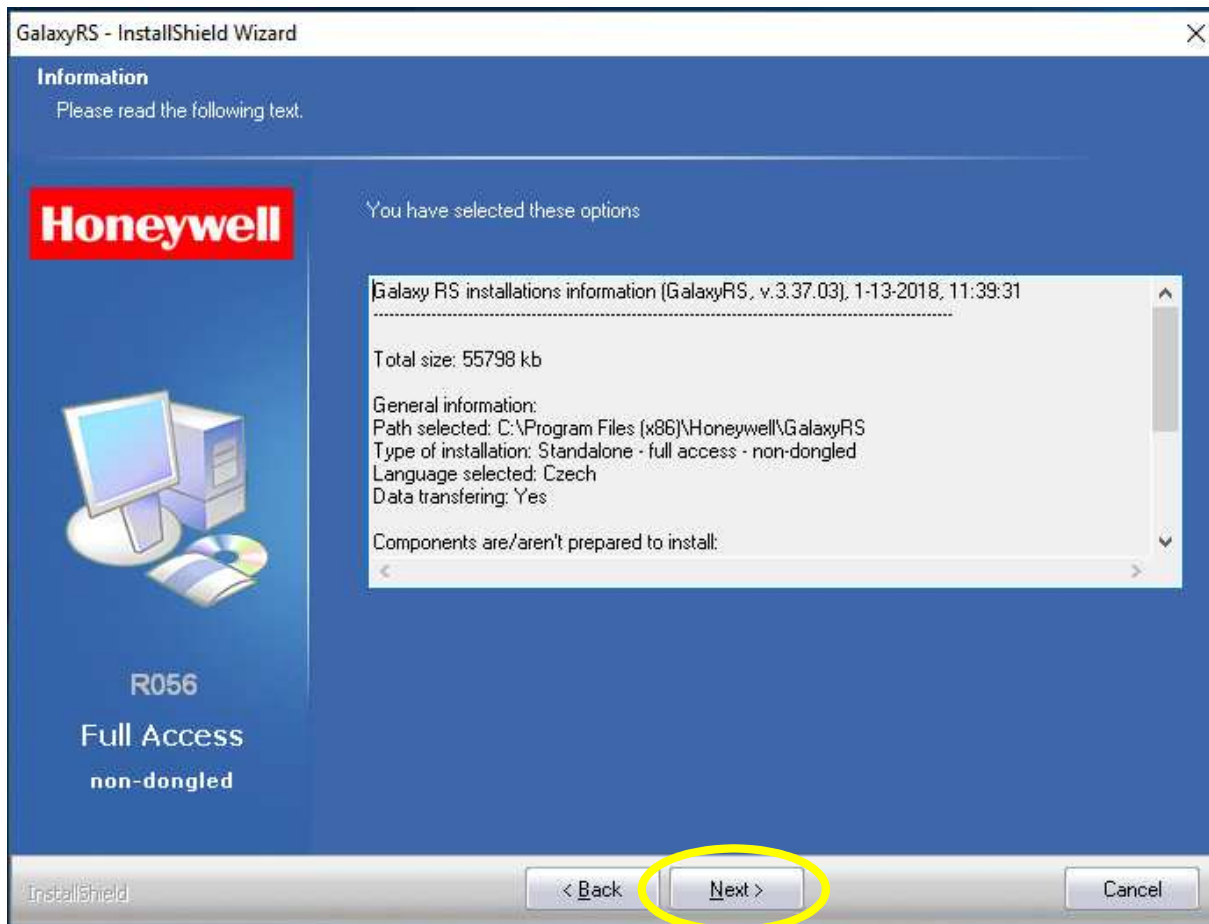

Start SQL server
 Install new SQL server instance

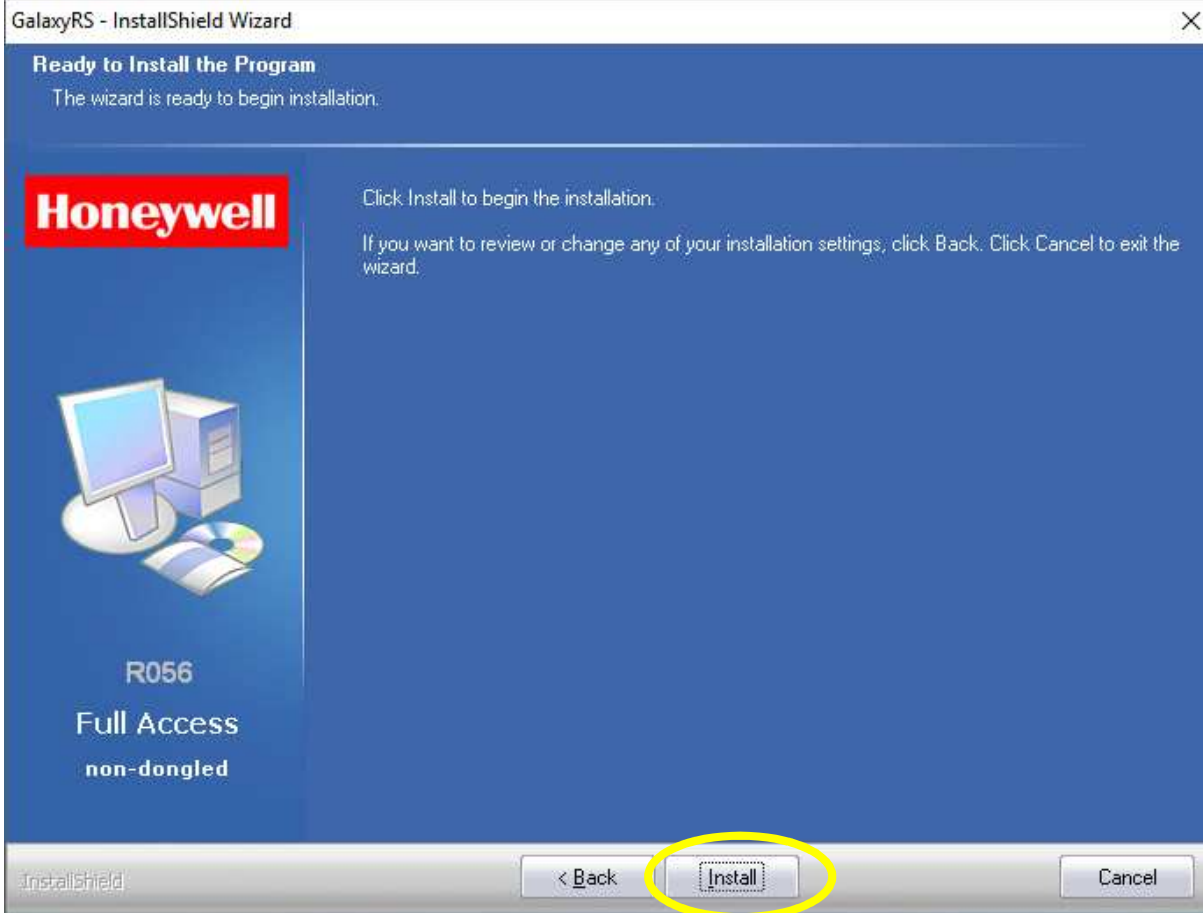

MSSQL\$GALAXYRS2

non-dongled

Důležité!!! Vložit heslo správce nejlépe zvolit a zapsat (např. dle uvedeného příkladu). V opačném případě program heslo vygeneruje.

Password policy:

- Does not contain all or part of the user's account name
- Is more than 8 and less than 32 characters in length
- Should not contain a consecutive string of three or more repeat characters (e.g., AAA1111)
- Contains characters from following categories:
 - English uppercase characters (A through Z)
 - English lowercase characters (a through z)
 - Base 10 digits (0 through 9)
 - Nonalphanumeric characters: ~ ! @ # \$ % ^ * () _ - + = { } | [] : < > ? / , .

Důležité!!! Pokud bude heslo zapomenuto, bude nutný zásah do SQL databáze – úprava, výmaz, ... Není to úplně jednoduché!
