

DGA Self-contained

The final touch for optimising your access control

The DGA is a product of the Digicode® range with self-contained electronics entirely dedicated to the security of your accesses. It is recommended as an addition to an intercom entry system or a videophone to control your doors and gates (automated or not).

Its design and its high resistance to vandalism make the DGA ideal for securing accesses to industrial and residential environments. Compatible with all CDVI locking solutions, it can adapt to the configuration of your choice, while offering you a high level of security.

- **Backlit.**
- **Cast aluminium.**
- **2 relays.**
- **Surface mount.**
- **Free voltage.**
- **Mounting with Torx® screws**
- **100 user codes.**

- Audible and visual feedback.
- Dimensions (L x W x D): 120 x 98 x 25mm.
- Power supplies:
 - 12 V to 24V ac,
 - 12 V to 48V dc.
- Consumptions: 25 to 80mA.

Recommended power supplies

ARD12 BS60

- WEEE & RoHS
- Environmental test: Salt spray
- IP64
- CE certification
- 25°C to +70°C
