#### Intercom

Establish communication with other installed monitors inside the house.  
In the 2 apartments kit the option to call to another apartment is available as well.

#### Playback

After 3 seconds the monitor automatically records a video (in case there is a micro SD Card installed) or a picture (in case there isn't) of the visitors. While answering, you also have the option to manually take a snapshot of your visit. The recorded videos/pictures from the outdoor panel will be played on the screen.

Capacity:  
1.118 pictures (without micro SD Card) or audio&video record up to 32G (with micro SD Card).

#### Settings

Brightness, contrast, selection of melodies, date & time, scene mode (brightly, soft and user), ring volume for day time and night time, language selection (16 different), etc.

#### do not disturb

Take your time to relax.  
Activate the Do not Disturb in 1 HOUR, 8 HOURS or ALWAYS.

#### call record

All the calls from panel-to-monitor or monitor-to-monitor will be recorded and can be reviewed afterwards.
